

Online Voice Lesson Prep Checklist

By Joseph Stanek | www.tourdefierce.vip

Before your next online voice lesson, use this checklist to set yourself up for success. A little prep = a lot of progress.

☐

Strong Internet Connection

Use fast, stable WiFi to prevent lag, freezing, and dropouts.

☐

Two Devices Recommended

Use one device for video chat (Zoom/Google Meet) and another for playing audio tracks or referencing notes.

☐

External Speaker (Optional but Ideal)

If possible, connect your second device to a quality speaker to hear tracks more clearly as you sing.

☐

Disable Noise Filters

Adjust your Zoom or Meet audio settings to disable noise suppression. This ensures your full voice comes through.

☐

Full-Body Camera View

Make sure your camera captures your posture and breath support—from head to knees.

☐

Quiet, Judgment-Free Space

Choose a room where you feel free to make sound without feeling self-conscious. Privacy = better progress.
